O-CHECK DESIGN GRAPHICS (South Korea):

Korean-based O-Check Design Graphics creates thoughtful, highly original designs, developing an unique and ever-changing collection, characterised by an inherent warmth and a timeless charm.

Known for its design flair, stationery aficionados love O-Checks collection of notebooks, pads and file folders.

Inspired by travel, books, music, conversation and imagery, the O-Check design team combine a vintage aesthetic with new ideas which bring designs to life.

Environmentally conscious, O-Check creates many of its products from recycled paper, natural fabrics and wood. All products are printed with soy ink.

HISTORY OF O-CHECK DESIGN GRAPHICS:

O-Check was established in 2000 in Seoul, Korea and quickly developed a reputation for stationery that is both beautiful and functional.

Derived from the Korean word gongcheck, which translates to a book with nothing inside, the name O-Check captures the essence of its notebooks - items which upon creation are empty, but come alive when filled with words, thoughts, feelings and drawings.
